

L810 Flat bench

- Structure, loads and fatigue resistance according to the TÜV standard.
- Reinforced frame, for more security and protection.
- Guarantees free, stable and natural guided movements.
- Designed for optimum exercise biomechanics. Guarantee smooth, natural movements for full muscle concentration
- 4 mm thick ST-37.. High durability.
- Structure raised 50mm above floor level with rubber tipped feet. This provides access for cleaning and vacuuming without scratching the paint.
- Round edges with elliptical section in order to avoid cuts and knocks.
- Three layer coating. Enhanced by an initial anti-corrosion primer, followed by an eposxy powder layer and a lacquer or barnish.
- Injected core fireproof seat. Unlike the classic foam padded particle boards, the injected core offers the advantage of uniformity, anti-distortion and greater anti-bacterial protection.
- Resistance adapted to all the strength moments developed throughout the whole movement.
- Injected core seat. The injected core offers the advantage of uniformity, avoids deformities and provides a higher protection against bacteria.
- With handles and wheels which allow easy transportation.

Specifications:

Length: 115,9 cm / 45,7 in
Width: 90 cm / 35,5 in
Height: 42 cm / 16,6 in
Weight: 28 Kg / 62 lbs
